They renamed the season pass to super pass because of the new dlcs, shady as \u2665\u2665\u2665\u2665!. Exactly as advertised but doesn't offer much content on top of the scummy practice that is to have multiple Season Passes for DLC.

Sure, it adds all these new playable characters but most prefer playing their custom characters over the preset characters and you still have to farm/grind the new PQs to get the new costumes, moves, super souls, and accessories.. I bought this on sale because these days there are no complete games only passes for more. This seemed to act like a season pass but the content is limited so you have to buy the rest. This honestly feels more like buying an expensive raffle ticket and getting a tamagotchi. I am a fan of DB BUT i dont appreciate that being used to make Multiple Passes for the fans to buy just for the very limited Content in each Which right now ON SALE you can get all the Passes and the game for the LOW LOW PRICE of \$120USD. Common Guys this is greedy. Complete scam, they said this was the season pass, you know, the \u2665\u2665\u2665\u2665ING THING THAT SHOULD ASSURE ALL DLC!!!!

But no, clearly Bandai isn't to be trusted for the future releases in terms of the Xenoverse series.

I just love how I find out about this over a year later, after having already realized this game is just a huge expansion of Xenoverse 1.
